

Abhishek Purohit

Data Engineer & Analyst | abhishek.purohit7ap@gmail.com | +91-7060470209

Profile

Experienced Data Analyst and Engineer with 5+ years of expertise in ETL tools including PySpark, Python, SQL, Power BI, and Azure. Skilled in data integration, analysis, modelling, and data warehousing concepts. Proficient in designing and implementing ETL pipelines, working with big data technologies, and ensuring data quality. Adept in collaborating with cross-functional teams and communicating technical information to non-technical stakeholders. Passionate about leveraging data to drive innovation and optimise business operations.

EDUCATION

BITS Pilani | M.Tech

Data Science and Engineering

Oct 2022 | 24 Months

UTU Tehri | B.Tech

Electronics & Communication Engineering

July 2017 | 48 Months

COURSE

Advance Data Science | IBM

Feb 2019 | 3 Months

Deep Learning | IIT Madras

Oct 2018 | 4 Months

Machine Learning | IIT Madras

Sep 2018 | 2 Months

NodeJs Master Class | Pirple

Apr 2018 | 3 Months

CERTIFICATES

DA 100 • DA 900 • AZ 900
OPEN HACK • Applied AI

SKILLS

PROGRAMMING

Python • C# • JavaScript • SQL

LANGUAGE

English • Hindi

EXPERIENCE

MCKINSEY & COMPANY | DATA ANALYST

Aug 2021 - Present | Gurgaon, IN

- Helped clients to problem solve and make better decisions using data, advance analytics and technology by leading CPG clients around the globe on data-driven marketing strategies with a focus on helping them leverage the latest advances in tech-enablement to find, deliver and sustain above-market growth of **16% YOY**, profitability of **57 mn \$**, and price management.
- Designing and deploying advanced analytics to deeply understand shopper and consumer behaviour and translate this into actionable strategies in the areas of pricing, assortment, innovation and branding.
- Created Automated Reporting System using **Databricks** to fast track data governance and outlier detection, this system helped client to visualise critical KPIs in **Power BI** dashboards and minimise data anomaly.

HCL TECHNOLOGIES | ENGINEER

Jun 2019 - Aug 2021 | Noida, IN

- Automated data processing using ADF for billions of rows of transactional data from SQL Server and Splunk to improve real-time reporting of product metrics.
- Worked with client to understand business needs and translate those business needs into actionable reports in Power BI saving **12 hours** of manual work each week.
- Implemented ETL frame work using Spark with Python and loaded standardise data into Synapse and polybase tables
- Insights of users productivity and there Capacity Utilisation based on access card logs breaking down how much time a user is spending on hourly, non-billable, and no-charge hours helped in identifying **800 non Compliance Users** as per Audit standard.

IMSI Pvt Ltd | ASSOCIATE

Apr 2018 - Jun 2019 | Noida, IN

- Collaboration and hands on development of Data Stack using python, C# for maintaining data assets and business reports.
- Assisting in engineering and managing data models within existing cloud environment of Azure and SSRS
- Developing data quality checks to adhere high standard and scalable code.
- Done POC with Microsoft for deploying Azure Data and Analytics solution with the turnaround of 3 Months

Tech Stack

- Data :** Pandas, Numpy, Alteryx, PowerBI, Pyspark, Databricks, HDInsight, Snowflake, Azure Data Factory, Airflow, ReactJs
- Cloud :** Logic App, Azure Functions,, ETL, Azure Synapse, Azue Fabric , APIs
- DevOps:** CI/CD, Docker, Shell, Splunk, GitLab
- Database:** Postgress, Vertica DB, Azure Synapse, SQL Server, MongoDB (NO SQL), Delta Lake
